

*Craftsmanship is the magical ingredient that transforms the common into the uncommon, the plain into the beautiful, the mediocre into the magnificent. It is that subtle touch of excellence which is immediately recognized and praised by everyone.*

We congratulate the award winners  
and celebrate the world class creative talent  
that Canada has to offer.

CoastImagingArts   
the art of imaging excellence

Coast Imaging Arts, your preferred source for digital fine art capture to 9,000 x12,000 pixels, high quality drum scans and superior separations for book publishers.

40 years of critical-colour experience for print.
